

# ARIZONA REGION SCCA

## SUPER PRODUCTION RULES

The intent of this class is to give production based and replica automobiles with no bonafide class a place to run.

- A. Super Production cars will be based on or replicas of mass-produced automobiles produced for use on public roads. Other cars may be eligible at the discretion of the Chief Scrutineer and the Chief Steward.
- B. **All cars entered must comply with all safety rules in the current SCCA General Competition Rules (GCR) and GT specification books.**
- C. Any modifications or substitutions to the chassis, engine, drive train, and body work are allowed. Forced induction is permitted.
- D. There is **NO** minimum weight for this class.
- E. Super Production cars must display the class designation as *SP*.
